SCIENCE, TECHNOLOGY, ENGINEERING & MATH PACKAGE

Students with special needs can enjoy rewarding careers in STEM fields! To achieve success in jobs related to CTE and STEM, students must possess the ability to show educators and employers the skills they have. Our toolkits provide the opportunity for students with special needs to discover their career interests, gain entry-level job skills and showcase these abilities to educators and employers!

STEM FOR ALL LEARNERS, INCLUDING THOSE WITH SPECIAL NEEDS

STEM workers use their knowledge of science, technology, engineering, or math to try to understand how the world works and to solve problems. STEM careers teach students to focus on the real-world application of problem solving. Many segments of industry rely on a STEM-developed workforce including construction, health care and the hospitality industry to name a few!
