

Project Discovery & Achieve Life Skills Training & Guidance Options

Implementation Trainings

On-Site Training

\$2,500

This full day (5-6 hours) of hands-on professional development provides educators a thorough understanding of the program and key implementation strategies. To maximize effectiveness, the nationally-certified trainer adapts each session to the Project Discovery or Achieve Life Skills curriculum on site. This training best serves groups of 5 – 20 participants and is open to teachers, counselors and administrators of the purchasing organization. On-site training also includes training manuals, toll-free phone support, and a site support survey.

Virtual Training

\$1,500

This full day (5-6 hours) of virtual training is designed to provide educators a complete understanding of Project Discovery and Achieve Life Skills in a remote environment. Virtual training is conducted over Zoom by a nationally-certified trainer and includes training manuals, toll-free phone support, and a 1-2-hour planning session prior to the training day.

On-Line Training

\$550

Perfect for organizations with limited time or budget, this abbreviated training is a 60-90-minute session conducted over Zoom by a nationally-certified trainer. On-line training can be tailored to specific curriculum and best serves organizations who are implementing a limited number of titles. It includes training manuals and toll-free phone support.

Supplemental Trainings

Coaching for In-Class, Remote & Hybrid Instruction

\$550

Perfect for organizations who have already received basic implementation training, this Zoom training focuses on providing effective instruction with Project Discovery and Achieve Life Skills in remote & hybrid environments. In a tailored 60-90-minute session, the coach applies her personal experience adapting specific curriculum to various delivery methods.

Guidance Documents for In-Class, Remote & Hybrid Instruction

Free to Customers

Designed specifically for customers using Project Discovery, this document is a perfect companion to In-Class, Remote & Hybrid Coaching. These curriculum-specific documents give detailed guidance for adapting Project Discovery curriculum for in-class, remote and hybrid instruction.
