

Education Associates Site License Addendum

Effective: July 1, 2020 – June 30, 2021

Education Associates proprietary materials are 'site license' versions unless otherwise noted. The site license authorizes the client to use the digital files on any number of computers in one building. To support the current needs of educators and students: **Education Associates has relaxed this site license agreement through June 30, 2021.**

- Education Associates is allowing educators to use curriculum with students at home or other learning environments. Schools may adapt curriculum to different platforms they are using for virtual learning.
- To help minimize the digital divide, Education Associates is allowing educators to duplicate curriculum as take-home packets for students with limited internet access.
- Neither electronic files nor physical materials may be shared with any individuals not employed by or enrolled in the school or building which was the initial recipient of the curriculum.
- Education Associates' content is proprietary and copyrighted. Allowing educators to work with students remotely during this pandemic does not minimize, reduce or eliminate Education Associates' copyright ownership or proprietary rights.
- Education Associates' curriculum packages and contents are not in the public domain.

By purchasing and accepting delivery of Education Associates proprietary materials, you acknowledge that you understand and agree to abide by these provisions.
