

# Education Associates Funding Alignment Guide

June 2021

*The Funding Resource Guide is intended to be a 'quick reference guide' that correlates available funding with Education Associates' support for education. The first part is a matrix that aligns funding sources to make students Job Ready and Life Ready. Next are individual funding snapshots with more detailed insight into each formula grant, including evidence-based resources and some considerations to jump-start your discussions with local decision makers. The COVID-19 pandemic has brought about significant funding changes. Dedicated funding streams have been made possible through recovery relief funding. These funds, as well as the major appropriations in federal funding, can be used for Job Ready and Life Ready curriculum in a blended/hybrid approach that supports both hands on and remote learning. For over 40 years, Education Associates supplies comprehensive, evidence-based career education, job preparation and life skills programs for all learners, including those with special needs and at risk.*

## Education Associates Aligned to K-12 Funding Areas

### ❖ Project Discovery

Effective, hands-on career education using real tools to perform real jobs
