Our customers are our number one priority! We are so excited to be partnering with you to get your students ready for work & ready for life. Our customer newsletter provides tips & tricks for implementing our curriculum. We are always here to support you and your students! What to expect:

- Best practices & implementation tips
- Upcoming conferences & events
- How to sign up for a refresher training
- Opportunities to get involved:
 - Become a Wednesday Webinar Speaker to share best practices
 - Nominate an outstanding educator for our **Excellence in Career Education Award** to win \$1,000!
- We strive for continuous improvement of our products, and we'd love to hear from you! Share your experience and feedback:
 - Click [here](#) if you have our Adapted kits
 - Click [here](#) if you do NOT have our Adapted kits

Not sure which product you have?

IMPLEMENTATION TIPS

FROM A TRAINER

Familiarize Yourself

- Go through the kits with fidelity the first time—use each component as recommended until you get to know the kit yourself!
- It is important to follow the Activity instructions in order. For a vast majority of the time, the lessons are built on prior knowledge and those aspects are covered in the preceding lessons.
- Read the instructions throughout at least the day *before* teaching. While this might go without saying, there are many times when teachers need to prepare items for the lessons in advance.

Find Your Rhythm

- The kits may take from 10-20 days, so don't feel pressure to complete the activities within a certain time frame. The progression should be based on students and not timelines.
- The kits are all structured the same—so find a rhythm in doing the kits! Get your students excited and do the pre-test, first look slides, activity, work performance benchmark, and then the post-test.
